Training was done in our

# SCHOOL UNIFORMS DEPT

- The department is doing well. We were able to make sweaters for Swanland school and Kenvic. We have greatly improved on the quality and have enjoyed to learn new skills.

# Goats

- Our goats are doing very well. We now have 132 families milking and enjoying the goat's milk and manure for their gardens.

What a blessing.

# We also planted maize in our small farms.

We supported our members to buy seedlings on time and we are glad to note that their farms are the best. Our members will soon harvest and will have enough food for their families.
